Emit

Take
a look at
tradition.
Legacy
sounds
phenomenal.

Listen to the new Emit series.

The new Dynaudio Emit series is the latest model range from Dynaudio, and was conceived as an entry-level high-end loudspeaker series that incorporates extraordinary levels of technical innovation and performance capabilities in an attractive package that is suitable to most any grade of amplification.

The high-value Emit models are equally conducive to HiFi or home theater system applications, and the speakers are relatively easy to drive and not at all difficult to position.

Comprised of loudspeakers with fairly modest price points but exceptional performance capabilities, the Emit models realize a level of performance and value that is without peer in their respective price class.

Advanced Dynaudio driver technologies coupled with Dynaudio's renowned Danish craftsmanship highlight the new Emit series. As is characteristic of Dynaudio, each Emit model features drivers designed the model's particular application, there-

by enabling a level of performance that is unrivalled in its category. From an aesthetic standpoint, the Emit models exhibit simply elegant Danish design and exceptional Dynaudio build quality, while sonically they deliver incredible dynamics, extremely high levels of balance and detail, and very powerful bass extension. Imaging and sound-staging capabilities are exceptional, and the sonic cohesion between the various models in the series ensures perfectly homogenous multi-channel system integration.

M10

M20

The M10 is the most compact model of the new Emit range and the perfect entry to the world of high-end audio.

The Dynaudio Emit M10 offers authentic Dynaudio technology and performance at a most attractive price point. It features a 28 mm diameter soft dome tweeter and a 14 cm diameter MSP (Magnesium Silicate Polymer) mid/bass driver, mated to a 1st order crossover utilizing high-quality components throughout.

The M10 remains an incredibly easy to drive loudspeaker for virtually any amplifier, as it features a 6 ohm impedance. The expertly tuned bass-reflex cabinet ensures that a most impressive low frequency performance is achieved, especially for a speaker of such relatively modest proportions.

As the entry into the world of true high-end sound quality and authentic Dynaudio performance, the Emit M10 is an ideal compact loudspeaker at a most appealing price point.

Technical Specifications

Sensitivity (2.83 V/1 m)	86 dB
IEC Long Term Power Handling	> 150 W
Impedance (nominal)	6 ohms
Weight	5.6 kg
Dimensions (W x H x D)	170 x 292 x 240 mm (6.7 x 11.5 x 9.4 inch)
Finishes	Satin Black Lacquer Satin White Lacquer

The Emit M20 is a traditional bookshelf loudspeaker model featuring innovative Dynaudio technologies and most impressive performance capabilities.

The Dynaudio Emit M20 continues the long established Dynaudio tradition of exceptional compact loudspeaker models. Boasting the neutrality, transparency, detail, and dynamics afforded by renowned Dynaudio technologies such as high performance soft dome tweeters, MSP (magnesium silicate polymer) mid/bass drivers, and large diameter lightweight aluminium voice coils, the M20 delivers serious performance at a price that exhibits serious value.

The Dynaudio Emit M20 driver compliment is comprised of a 28 mm diameter soft dome tweeter and a 17 cm diameter MSP (Magnesium Silicate Polymer) mid/bass driver, which are mated to a 1st order crossover featuring high-quality components throughout.

The M20 features a linear impedance and high power handling capabilities, making integration into any system relatively easy. Dynamics are exceptional, and the combination of its precisely tuned bass reflex enclosure and the incredible performance capabilities of the Dynaudio mid/bass driver ensure the class-leading bass performance.

A step up in performance from the smaller M10 model, the compact Dynaudio Emit M20 exhibits true high-end sound quality and exceptional value, proudly continuing the tradition of exceptional Dynaudio compact loudspeaker designs.

Technical Specifications

Sensitivity (2.83 V/1 m)	86 dB
IEC Long Term Power Handling	> 150 W
Impedance (nominal)	4 ohms
Weight	7.5 kg
Dimensions (W x H x D)	215 x 355 x 265 mm (8.5 x 14 x 10.4 inch)
Finishes	Satin Black Lacquer Satin White Lacquer

M30

Dynaudio's new entry-level floor-standing loudspeaker is a true powerhouse and offers the finest value of any loudspeaker in its class.

The Dynaudio Emit M30 is the entry-level Dynaudio floor-standing model, and similar to the other models in the new Emit range, its exceptional performance capabilities and incredible value proposition ensure that it is without peer in its price class.

The Emit M30 has a relatively compact footprint, while the sound quality yielded by its driver complement, comprised of a 28 mm soft dome tweeter and dual 17 cm diameter MSP (magnesium silicate polymer) mid/woofers with huge 75 mm diameter lightweight aluminium voice coils, belies the relative modest proportions – and is typically characteristic of a loudspeaker priced at over double the M30's relatively modest price. The Emit M30 boasts authentic Dynaudio technologies and delivers the true high-end sound quality that Dynaudio has become famous for. Exceptional power handling, incredible imaging, powerful dynamics, impressive bass extension, and extremely low distortion characterize the performance of the Emit M30. A smooth, natural high frequency reproduction is ensured by the renowned Dynaudio soft-dome tweeters while the precision-tuned bass reflex cabinet enables the dual MSP woofers to realize their optimum performance capabilities and ensures a class-reference bass response.

Technical Specifications	
Sensitivity (2.83 V/1 m)	86 dB
IEC Long Term Power Handling	> 200 W
Impedance (nominal)	4 ohms
Weight	18.0 kg
Dimensions (W x H x D)	204 x 960 x 275 mm (8 x 37.8 x 10.8 inch)
Finishes	Satin Black Lacquer Satin White Lacquer

M15 C

Ultra-compact center channel loudspeaker combining ease of integration with a highly refined sonic character.

The Dynaudio Emit M15 C center channel loudspeaker offers a combination of compact dimensions, making it relatively easy to position, and the same advanced Dynaudio technologies incorporated into the new Emit series models. Thus extremely refined multichannel systems can be configured from various combinations of Dynaudio Emit series models, which will deliver true high-end sound quality and represent the greatest level of value in the price category.

The Emit M15 C delivers a natural midrange character, exceptionally detailed and clear high frequency reproduction, and incredibly low distortion; the same sonic characteristics of the other models in the new Emit series. Its driver compliment is comprised of a 28 mm soft dome tweeter and dual 11 cm MSP (magnesium silicate polymer) mid/bass drivers, and the M15 C seamlessly integrates with any of the models in the Emit series to deliver a perfectly homogenous sound across all channels.

The high-grade crossover components and 4-6 ohm linear impedance of the M15 C make it easy to drive for any amplifier or AV receiver. The Emit M15 C is supplied with a detachable metal plinth that facilitates angling the speaker's dispersion upward or downward towards the listening area.

Technical Specifications	
Sensitivity (2.83 V/1 m)	86 dB
IEC Long Term Power Handling	> 150 W
Impedance (nominal)	4-6 ohms
Weight	7.0 kg
Dimensions (W x H x D)	500 x 130 x 210 mm (19.7 x 5.1 x 8.3 inch)
Finishes	Satin Black Lacquer Satin White Lacquer

All there is.
